

We believe our district reflects the following values:

Relationships

We value:

- the bond between students and staff members; we understand when students feel safe, encouraged, and supported, learning takes place.
- diversity and respect for all.
- relationships between district employees built on mutual respect and professional conduct.
- engaged families who support learning.

Accountability

We value:

- teachers utilizing data to drive instruction for student growth.
- building administrators as instructional leaders responsible for the growth of students and teachers.
- administrators who lead the district guided by the CSIP.
- fiscal responsibility with district resources.

Work Ethic

We value:

- positive effort put forth by students and employees in their daily tasks.
- individual and team pride resulting from quality effort, attendance and integrity.

Results

We value:

- processes to create the desired result of lifelong learners and successful citizens.
- continuing education and professional development opportunities for employees resulting in ongoing growth in our students' education.

Communication

We value:

- transparency between home, school and community; conducting all emails, social media posts, phone calls, letters and face-to-face conversations professionally and in students' best interests.
- open communication between the Board of Education and stakeholders.

Curriculum/ Technology

We value:

- the relationship between 21st Century curriculum and technology.
- progressive advancement of curriculum resources and instructional technology so students are prepared as contributing members of society after graduation.
